

Derek King, B.S., Mechanical Engineering

Bio/Summary

Mr. King has been working for Berkeley Engineering And Research, Inc. since 2009. He typically prepares test beds (both physical and software) and runs experiments to achieve the objectives set by the senior staff, and assists with data and error analysis and the iterative process of refining experimental parameters. He also collects laser scanning data of coke drums, performs data analysis, and assists with programming and maintaining a proprietary software library.

Select Industry Experience

- Oil & Gas Industry
- Manufacturing
- Consumer Products
- Construction
- Maritime
- Biomechanics

Education

2009 B.S. In Mechanical Engineering from U.C. Berkeley

Relevant Experience

2009 – Present, Mechanical Engineer- Berkeley Engineering And Research

Mr. King has over 5 years of experience working in the field of mechanical engineering. He regularly prepares test beds, both physical and software, and runs experiments to achieve the objectives set by the senior staff, assists with data and error analysis and the iterative process of refining experimental parameters. He also collects laser scanning data of coke drums, performs data analysis, and assists with programming and maintaining a proprietary software library.
